An advertisement for the Ecomani Wireless Mini Keyboard-touchpad. The top section shows a person using the device in front of a computer monitor. The middle section features the Ecomani logo and the product name. Below this, three bullet points highlight the device's features: 'Easier than ever to control your PC wirelessly', 'Windows 7 Touchpad with multi-touch gesture support', and 'Seamlessly switchable to keyboard pad for text entering'. The bottom section consists of three panels, each showing a close-up of a specific feature: the 'Keyboard / touchpad mode switch', the 'Remote controller for HTPC, IPTV, Set-top Box, Car PC, and so on', and the 'Navigation key'.

Support:  [Manual \[EN\]](#)

The Ecomani mini Multi-touch Wireless Keyboard-touchpad Combo combines the standard keyboard and mouse operation in a compact, portable housing. It is designed to improve the user experience of using keyboard and mouse as an input device. It allows user to control a mouse cursor, enter text, and perform Windows 7 multi-touch function wirelessly with the latest capacitive touch sensing technology. You do not need a touch screen panel any more.

It is small and easy to use. The touchpad is best for you to mouse around the screen remotely. You can tap the touchpad to click and use multi-touch gesture to take full advantage of Windows 7. Typing is easily done with its keyboard pad. You can double click icons or

click and hold to drag and drop or highlight text just like you expect. Two actual mouse buttons are built-in for applications as required. It stays connected to the computer wirelessly without interruption while using it. And the battery (chargeable via a USB cable) stays charged for operation up to 600hr. The remote goes to sleep on its own pretty quickly to conserve the battery. Press a mouse button or any button to wake it up. If you are looking for a portable control wirelessly with the added function of an almost-full keyboard, this is fantastic for you. It is perfect as the "remote" for PC control, presentation, lecture, and especially for entertainment center. Sit back, relax, and enjoy the control remotely.
