AppServ-win32.2.5.10 Installation Step

5. Please specify Apache Configure, and then click [Next] to go to next step.

The image shows a Windows-style installation window titled "AppServ 2.5.10 Setup". The window has a standard Windows XP-style title bar with minimize, maximize, and close buttons. Inside the window, there is a logo of a colorful feather on the left and the text "Apache HTTP Server Information" followed by "Please enter your server's information." in the center. Below this, there are three input fields: "Server Name (e.g. www.appservnetwork.com)" with the value "localhost", "Administrator's Email Address (e.g. webmaster@gmail.com)" with the value "root@localhost", and "Apache HTTP Port (Default : 80)" with the value "80". A red rounded rectangle highlights these three input fields. At the bottom of the window, there is a status bar that says "Nullsoft Install System v2.18" and three buttons: "< Back", "Next >" (which is highlighted in blue), and "Cancel".
